EDUCATION

B.Tech in Computer Science Engineering
Channabasaveshwara Institute of Technology
2016 – 2021 Gubbi,Tumkur,Karnataka

12th standard
Kempegowda Pu College
2015 – 2016 Tumkur,Karnataka.

10th standard
Chethana Vidya Mandria
2014 – 2015 Tumkur,Karnataka.

PROJECTS

Docker and Kubernetes – Currently working
Docker is a set of platform as a service products that use OS-level virtualization to deliver software in packages called containers. Containers are isolated from one another and bundle their own software, libraries and configuration files, they can communicate with each other through well-defined channelsKubernetes is an open-source container-orchestration system for automating computer application deployment, scaling, and management. It was originally designed by Google and is now maintained by the Cloud Native Computing Foundation.

Ansible
Installation, updating are some of the common and daily routines that are carried out with systems and in IT world. Also installing new software or updating the exiting one with new version is considerable with single system. When it comes to point of installation and updating the entire systems under a server or whole systems of company is time consuming and also an tedious work . So here comes the idea and utilization of Ansible.Ansible is an IT automation tool. You won't need to write custom code to automate your systems; you list the tasks required to be done by writing a playbook, and Ansible will figure out how to get your systems to the state you want them to be.

Web Project
I have designed website for REAL-ESTATE. Web design encomposses many different skills and discipline in the production and maintenance of websites. The different area of web design include web graphic design , interface design, authoring, including standardized code and proprietary software, user experience design, search engine optimization.

INTERNSHIP

Eunoia Labs – internship
I got a opportunity to work on Devops at Eunoia Labs on a Ansible Project from that i have prepared a paper on Automation of Server Management using Ansible

WORKSHOPS

2 Days National level Workshop On Mathematics for Machine Learning and introduction to Deep Learning
Gubbi,Tumkur,Karnataka
2017

2 Days work shop on Data Science
BITS Pilani Hyderabad.
2019

SKILLS

MACHINE LEARNING
DEVOPS
C , C++
SOFTWARE TESTING
JAVA , PYTHON
HTML, WORDPRESS

CERTIFICATIONS

Coursera
Google IT Support
2020

Coursera
The Bits and Bytes of Computer Networking
2020

Honeydewz Software Technologies
Software Testing (Manual Automation)
2019 Banglore
